Project

1.Personal Portfolio Website
Built a responsive portfolio website using react+vite to showcase projects, skills, and contact form.
Live Link: [https://abhimanyupandey.vercel.app]

2. Full-Stack eCommerce Website
Full Stack Developer
Jun 2025 – Present
Built a dynamic and fully functional website using the MERN stack (MongoDB, Express.js, React.js, Node.js), featuring user authentication, admin dashboard, and RESTful APIs.
Developed a fully responsive frontend to ensure smooth UX across mobile and desktop devices.
Implemented secure backend operations with CRUD functionality, data validation, and JWT-based authentication.
Deployed the project on Hostinger, with both domain registration and hosting configured independently.
Dataline.co.in

3. Calculator App
Created a functional calculator using HTML, CSS, and JavaScript.
Implemented basic arithmetic operations with responsive design.

And more+ projects.
